

Fifth Year LCAs Mock Interviews at Irish Cement

The fifth year LCA classes recently visited Irish Cement where they completed their mock interviews. Students were put before panels of Irish Cement staff as if they were applying for jobs at the plant in Platin. They had to send on cover letters and CVs in advance of the interviews. In the weeks before Aileen Twibill and Kate Horton visited the school to help prepare the students in building their CVs and to teach them techniques to excel in interviews. All students were commended on their performances and particular praise was given to Ciarán Hand, Ben McEvoy and Jac Brannigan.
