April 24th 2020

Dear Student, Parents & Guardians,

We hope you had a relaxing and safe Easter break. We are all starting back into school work for our last term starting today.

We are delighted with the engagement of our students through digital learning technologies to date. Well done to all students and please continue to work as hard as you did in the previous three weeks. The opportunity remains for every student to continue with the work being allocated by teachers and to engage with them for this last term.

We have also opened a Teams group for TY where we have set out lots of optional extra projects students might like to engage with in the coming weeks, along with some activities to promote connection. We have also asked that all our TY students create an online portfolio of their TY experience. Students are being given support and guidance in order to complete this task. Their deadline for TY portfolio submission is May 18th. It should be an enjoyable, reflective, creative activity for them over the coming weeks.

Best of luck to our students in this final term and we will continue to be with you every step of the way!

Our support services remain available to all members of our school community. I have included their contact details at the end of the letter

Regards,

Year Head
Lorraine Keenan
